Operations

Our Vision

We believe cryptocurrency should be accessible and profitable for everyone. Our vision is to create a financial future where daily crypto earnings become the standard, not the exception. By leveraging automation and advanced algorithms, we aim to transform complex market opportunities into simple, reliable income for our users worldwide.

Our Mission

Our mission is straightforward—to provide a secure, transparent, and efficient investment experience. Using state-of-the-art AI-driven trading tools, Exteg aims to maximize returns while minimizing risks. We strive to continuously improve our technologies, delivering exceptional results and peace of mind to our growing global community.

Simple & Smart

How Exteg Works

- **AI-Enhanced Trading:** Advanced algorithms ensure optimal performance.
- **User-Friendly:** Simple, intuitive platform design—no prior trading knowledge required.
- **Secure & Reliable:** Industry-leading security protocols protect your investments.
- **Transparent Earnings:** Daily fixed returns without hidden fees.
- **Dedicated Support:** Professional customer support team available 24/7.

Simple & Smart

How Exteg Works

Exteg uses automated, AI-powered algorithms designed for high-frequency crypto trading. These algorithms continuously analyze and respond to market fluctuations in real-time, ensuring consistent profits. Here's a simplified breakdown:

- Choose your investment plan.
- Deposit funds using your preferred cryptocurrency.
- Watch your investment grow with daily fixed returns.
- Enjoy seamless, rapid withdrawals at your convenience.

FAQ

Any questions?

What is Exteg and how does it work?

Exteg is a next-generation crypto platform offering high daily rewards through automated AI-powered trading models. Our system allocates user deposits into carefully selected crypto instruments and executes trades 24/7 based on dynamic, high-frequency strategies. You simply choose one of our three investment plans, deposit your crypto, and watch your balance grow — no skills or monitoring needed. All profits are credited daily, and your funds are available for withdrawal anytime you cancel your plan.

Is investing on Exteg safe?

Yes. Our system is powered by battle-tested AI strategies designed to avoid losses and maximize performance. Every action is monitored in real-time by our tech team and AI-powered safety layers. Exteg is run by a team with years of experience in building fintech platforms and managing liquidity with precision. Your funds remain under full control — visible, traceable, and withdrawable at any time.

What is the minimum and maximum deposit?

The minimum deposit is just \$20 to get started. There is no strict maximum deposit limit, but for security reasons, we advise not to send more than \$250,000 in a single transaction. Larger investments can be split into multiple deposits without any issues.

Which cryptocurrencies are accepted?

You can deposit in:
Bitcoin (BTC), Ethereum (ETH), Litecoin (LTC), BNB (BNB), Tether USDT (TRC20, ERC20, BEP20, MATIC), Tron (TRX), Solana (SOL), Dogecoin (DOGE), Ripple (XRP), Polygon (MATIC), Dash (DASH), Toncoin (TON).
All balances are calculated in USD based on live exchange rates.

How fast are withdrawals processed?

Profit withdrawals and referral commissions are usually processed within 24 hours.
If you cancel your investment plan, the released principal will first return to your account balance. From there, you can request a withdrawal, which may take up to 48 hours to process.
We always aim to complete all transactions as quickly as possible, but occasional minor delays may occur due to blockchain congestion or third-party platform operations.

FAQ

Any questions?

What is the minimum withdrawal amount? Are there any fees?

The minimum withdrawal amount is \$5.
Exteg does not charge any fees for withdrawals. We cover all blockchain network costs, so you always receive the full requested amount.

What happens if I cancel my active investment plan?

If you cancel your plan before it ends, your funds are immediately returned to your account balance, reduced by a 5% early exit fee. You can withdraw the amount or reinvest it — no delays, no complications.

How do I keep my account secure?

Use a strong password with at least 6 characters, mixed upper/lowercase letters, numbers, and symbols.
Enable Two-Factor Authentication (2FA) — it offers 100% protection.
Never share your login credentials and avoid using the same password as your email.
2FA is mandatory for anyone promoting Extég with their referral link.

How does the referral program work?

You'll receive a personal referral link. Every time someone signs up and deposits through your link, you instantly earn a 6% commission — credited to your balance in the same cryptocurrency they deposited. You can withdraw it or reinvest right away. There are no limits on earnings or the number of referrals you can invite.

Can I earn without investing myself?

Absolutely. You can promote your referral link and earn commissions even without an active deposit. Many of our users start that way — grow your earnings first, then invest if you want. No strings attached.
